

## PPA Range Accessories

## ATT20 Wideband Attenuator

The ATT20 Wideband attenuator provides a very flat frequency response over a wide frequency range. Giving 20:1 attenuation allowing a 60V signal to be attenuated to the input rating of the BNC external voltage input.

Voltage input: BNC  
Voltage rating: 60V pk(ATT20)  
Connections to PPA: BNC  
<0.5dB@25MHz <3dB@30MHz

Voltage output: BNC  
Frequency range DC-30MHz  
Voltage scale factor: 20-1(ATT20)
