

PLCC Balanced Output Unit

BAL01

Power Line Carrier Communications balanced output unit designed for use with the SLM3505 Selective level meter

DESCRIPTION

Provides a balanced output from the SLM unbalanced output

Impedance Z_{out}	75 Ω	150 Ω	600 Ω
Amplitude	+10 dBm \rightarrow -40 dBm	+10 dBm \rightarrow -40 dBm	+10 dBm \rightarrow -40 dBm
Bandwidth	300Hz to 600kHz		

Dimensions (mm) : 121 x 80 x 31 mm
 Weight : 300 g

Designed in accordance with IEC 61010

SAFETY WARNING: This note must be read in full. Any operations on live conductors can be dangerous. The operator is expected to be fully aware of all necessary electrical safety regulations and procedures, taking responsibility for safe operation. Users must ensure that the equipment is at all times in its original safe conditions.
